

**Old Nags Head Place
Architectural Review Committee
Cottage Color Guidance
July 2020**

The following is a listing of cottage exterior colors assembled by the Old Nags Head Place (ONHP) Architectural Review Committee (ARC) in response to homeowner requests for specific guidance on approvable house colors.

The stain/paint listing is composed of colors within the shades of “grays and brown earth tones” as stated in the ONHP Homeowner Association (HOA) Declaration of Protective Covenants and the ARC Architectural Design Guidelines. Following a homeowner survey in early 2020, four additional new colors were added to the approved ONHP color palette. The listing shall be used as a guidance tool by homeowners when selecting an exterior house color.

The listed colors can be obtained in numerous brands of commercial stains and/or paints that are easily accessible in the Nags Head area. Therefore, homeowners submitting exterior paint requests are not limited to a specific stain/paint vendor. Although considered a comprehensive list of exterior colors, the ARC recognizes that this listing is not the only source of acceptable color choices.
